

144 cubits

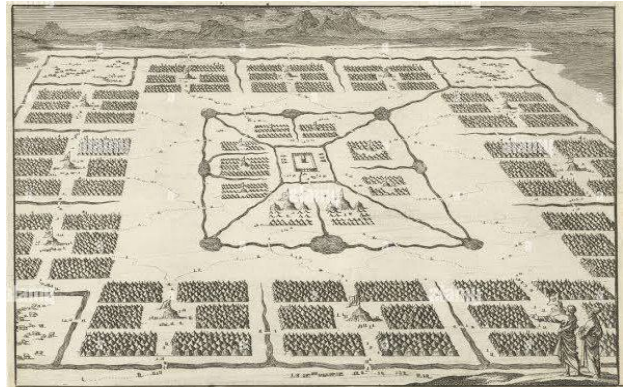

The Square city prophesy of the 144 cubits.

Rev 21:16 And the city lieth **foursquare**, and the length is as large as the breadth:..

The camp will be protected in the wilderness and into the millenium by the 144,000 soldiers.

This is a Square measure. The word Tetragonos is used here in the greek to denote a literal Square shape.

The wall is the soldiers of the 144000 in a square alignment for protecting the perimeter.

Rev 21:16 And the city lieth foursquare, and the length is as large as the breadth: and he measured the city with the reed, twelve thousand furlongs. **The length and the breadth and the height of it are equal.**

The measure of the heighth and width and breath is equal from them being men.

Mans distance is seen here between eachother in ranks.

Rev 21:17 And he measured the wall thereof, an **hundred and forty and four cubits, according to the measure of a man**, that is, of the angel.

The prophet Ezekiel was told how to measure the cubit.

Not all the measurement of Cubit was the same. Sometimes theyd have alterations of the Cubit.

Ezek 43:13 And these are the measures of the altar **after the cubits: The cubit is a cubit and an hand breadth**; even the bottom shall be a cubit, and the breadth a cubit, and the border thereof by the edge thereof round about shall be a span: and this shall be the higher place of the altar.

This cubit was not just the Cubit of 18 inches it was also a handbreadth which was 4 inches.

The Cubit used was an elbow length and a hand width in measure so it was 18 inches + 4 inches.

This was the measure of a physical body to be seen to use definition of the Cubit used to measure.

The standard for the rest of this measuring for the Altar was to be used as the Cubit of 22 inches.

Ezek 43:14 And from the bottom upon the ground even to the lower settle shall be two cubits, and the breadth one cubit; and from the lesser settle even to the greater settle shall be four cubits, and the breadth one cubit.

Now we get to the Altars measurement.

Ezek 43:15 So the altar shall be four cubits; and from the altar and upward shall be four horns.  
16 And the **altar shall be twelve cubits long, twelve broad, square in the four squares thereof.**

The Altar was measured 12 cubits by 12 cubits making it 144 square cubits.

Now this is how we will understand the Revelation prophesy statement during this measurement.

In the measuring of the WALL.

Rev 21:17 And he measured the wall thereof, an hundred and forty and four cubits, **according to the measure of a man**, that is, of the angel.

We see 144 cubits of the wall according to the measure of a mans stature.

144 men on the surrounding wall is rows of soldiers of the 12 tribes of 12000 each the front row is covering the head of each row counted. 1 man for a row with 999 behind him.

This is the counsel of Jethro to Moses that the measure Moses was used to set captains over 1000.

Exodus 18:21 Moreover thou shalt provide out of all the people able men, such as fear God, men of truth, hating covetousness; and place such over them, to be **rulers of thousands**, and rulers of hundreds, rulers of fifties, and rulers of tens:

Deut 1:15 So I took the chief of your tribes, wise men, and known, and made them heads over you, **captains over thousands**, and captains over hundreds, and captains over fifties, and captains over tens, and officers among your tribes.

These 144 men are the row ranks of the captains over 1000s.

Rev 21:17 And he measured the wall thereof, an hundred and forty and four cubits, **according to the measure of a man**, that is, of the angel.

This picture is an example of this measurement which would be a wall of men 18 cubits according to this measurement which is 18 mens length on this wall using the measure of a cubit as a man.

This is the 144000 troops of the twelve tribes that are sealed for the end times.

Rev 7:4 And I heard the number of them which were sealed: and there were sealed an **hundred and forty and four thousand of all the tribes of the children of Israel.**

This measurement is showing its men according to the measure of a man.

144 ranks of 1000 troops is 144000 troops of 12000 troops per tribe. So the outward rank size is only 1 mans length on the outside.

This means its 144 rows of men on the perimeter.

You would only count the outside person in the length of the perimeter.

This allude to also the 12000 soldiers of each tribe surrounding by the measure of 12000 furlong which a furlong is measure of a race ran.

Rev 21:16 And the city lieth foursquare, and the length is as large as the breadth: **and he measured the city with the reed, twelve thousand furlongs.** The length and the breadth and the height of it are equal.

The standing rows of soldiers are the the Army of AMI, the Army of the Lord.

144,000 soldiers. Ten thousand and thousand thousands of saints.

144 rows of 1000 each of 12000 furlong of 12000 men each tribe.

144 cubits the distance using measurement of a mans distance.

The heighth of man, the width of man and length will all be measure of one man.

This is what is said that the Lord will return with armies and tens of thousands of his saints.

Jude 1:14 And Enoch also, the seventh from Adam, prophesied of these, saying, Behold, the Lord cometh with **ten thousands of his saints,**

We see rows of Thousands measured.

Daniel 7:10 A fiery stream issued and came forth from before him: **thousand thousands** ministered unto him, and **ten thousand times ten thousand** stood before him: the judgment was set, and the books were opened.

Again we see thousands and thousands used as measure.

Rev 5:11 And I beheld, and I heard the voice of many angels round about the throne and the beasts and the elders: and the number of them was **ten thousand times ten thousand, and thousands of thousands;**

Deut 33:2 And he said, The Lord came from Sinai, and rose up from Seir unto them; he shined forth from mount Paran, and he came with **ten thousands of saints**: from his right hand went a fiery law for them.

The wall of the city is the people of the 144000 faithful soldiers prepared for the end times.

144 rows of 1000 men shoulder to shoulder.
